Concrete Repairs- in planning phase, putting together bid documents to address spalling concrete on crest of the concrete spillway. Construction is planned for 2022. Field inspection was conducted on 5/6/21, an assessment report was provided by Barr. Report outlines areas that need repairs within 5 to 10 years.

Buoy Lines- Staff have reviewed the current buoy layout. A new buoy lines near the Hydro Station are in the works. This will add more safety to boater and recreationists on the lake and river. Material has been ordered and scheduled for delivery in August. In order to get the new buoy line installed large concrete anchors are needed. Staff is working to get a diver and heavy equipment lined up for the install.

New buoy line layout for the lake near the dam

Sluice Gate Stress Analysis- in planning phase, the FERC has requested a detail study of the spillway gates. This is common industry request from FERC as they continuously look at safety involving dams. We are currently working with engineering to develop a procedure to complete this task. This task should be completed by 2024.

Powerhouse Service Power Upgrades- the high voltage cable from the house transformer to the transfer switch needs to be replaced due to inadequate sizing for the load.

Gate Spilling Summary:

Releasing water from the sluice gates is primary done to maintain lake level when flow exceeds the powerhouse. At certain times, we can use the gates to help keep the lake mixing to maintain oxygen levels (effectiveness depends on a number of factors) at the bottom of the lake.

The water quality monitoring begins on June 1st and will end on September 30th; operators monitor the water quality conditions and take readings as outline in the WQ Plan. The dam releases water from the bottom gates to maintain run of river and/or help with water quality in Ford Lake. The Federal License requires we pass water with a minimum of 5mg/l of dissolved oxygen all the time. Therefore, spilling from the bottom gates in the summer for improving the lake is not always possible.

Re: June 2022 Police Services Monthly Report

SUMMARY:

During the month of June 2022, there were 3,869 calls for service in Ypsilanti Township, a 13% increase in calls for service as compared to June 2021.

OPERATIONS

During June 2022, Patrol Operations responded to calls for service, conducted traffic enforcement, and completed criminal investigations in support of our citizen's quality of life.

The month of June showed a decrease in home invasions of 22% (14 compared to 18 in 2021). In many of these incidents a domestic relationship and unauthorized entry were common. The best prevention methods for a typical residential home invasion are to keep all windows and doors locked (including vehicles in the driveway), including deadbolts, while away from home. External lighting and visual deterrents such as "Beware of Dog" or alarm signage also discourages criminals.

The month of June showed a decrease in breaking and entering's of 33% (2 compared to 3 in 2021). In the month of June 2022, we saw 2 robberies. In the month of June 2021, we saw 4 robberies (50% decrease).

In June 2022 there were 8 reported UDAA's. This is a 60% decrease from June 2021 where there were 20 reported UDAA's. Many of these vehicle thefts occurred by the suspect gaining entry to an unlocked vehicle. Citizens are reminded to lock all vehicle doors and keep ignition keys in separate and secure areas to prevent such thefts. Valuables, if left in a vehicle, should be placed in a concealed location. The following website provides further information regarding the reduction of potential for theft of your vehicle, common vehicles targeted, and further information.

YOUTH INITIATIVE

The Sheriff's Office continues to partner with courts, probation, and social services to ensure that there is accountability beyond Sheriff's Office contact with the offenders that are consistently involved in crimes. From a year-to-year perspective, comparing 2022 to 2021, our juvenile offenses and complaints are down 17.9% (from 117 to 96) and our runaway complaints are up 55.55% (from 27 to 42).

Trustee Swanson asked if the township wide study would impact other smaller studies that are done when new developments are being considered. Mr. Iacoangeli answered that these smaller studies would still be required for developments. Trustee Swanson asked if times of year were taken into consideration during the impact study. Mr. Iacoangeli answered that they focus on times of day and weekday versus weekend.

2. 14B COURT SECURITY.....MICHAEL HOFFMEISTER

James Renaud and David Gassner from JFR gave a presentation on proposed security ideas for 14B Court (see attached).

Trustee Swanson asked about security for the Civic Center if a separate court building is built. Mr. Renaud responded that the security level of the Civic Center is not as high for the court. He added that the township could choose to add security measures to the Civic Center, if wanted.

**4. LICENSE PLATE READERS.....CLERK JARRELL ROE AND
TREASURER ELDRIDGE**

Clerk Jarrell Roe stated the entrances and exits to the township have been identified as locations for the cameras and reviewed information about the license plate readers.

Treasurer Eldridge stated that the cameras would only be used to take a picture of the rear end of a vehicle and that it does not take pictures of the vehicles or occupants. He added that the funds were available in the current police budget.

Treasurer Eldridge stated the information would be stored for 30 days and then it would be gone and the information would not be accessible to anyone else.

Discussion continued on the policies and uses of the license plate readers.

Township Wide Traffic Impact Study

Preface:

Traffic impacts and their potential need for mitigation are important for any community to consider with new development proposals. Public policy makers, citizens, and developers all have a stake in understanding and responding to additional demands on the transportation system. All share the common interest of a safe and efficient transportation network.

A properly developed traffic impact study can provide the factual basis for good decision-making and facilitate the timely implementation of effective mitigation measures.

What is a Traffic Impact Study?

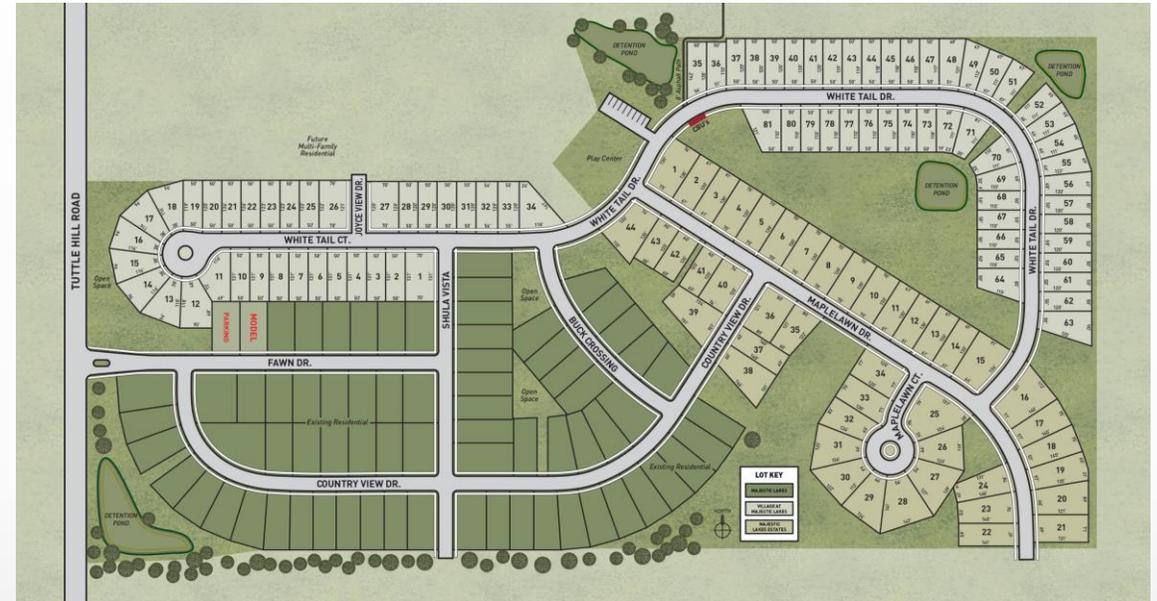

A traffic impact study (TIS) is a specialized engineering study that determines the potential traffic impacts of a proposed traffic generator. A TIS should answer the following fundamental questions:

- What are the existing traffic conditions, the expected future traffic conditions without the development, and the expected future traffic conditions with the development in place for all roadway users?
- Can the existing and planned transportation system accommodate the additional traffic generated by the planned development?
- Are there additional transportation needs, beyond those already programmed or included in the local transportation plan, required to maintain a satisfactory level of service (LOS)?
- What are the recommended roadway improvements that may be necessary to accommodate the expected development traffic?

Site Specific Traffic Impact Study:

Site Planning is an in-depth analysis of a proposed development; one that integrates the buildings, site circulation, parking, and access to a public roadway system.

A Traffic Impact Study is required as a part of the site planning process for projects that will generate a high level of vehicle trips. In Ypsilanti Township that is 100 directional trips during the peak hour of traffic generation for a project or over 750 trips in an average day.

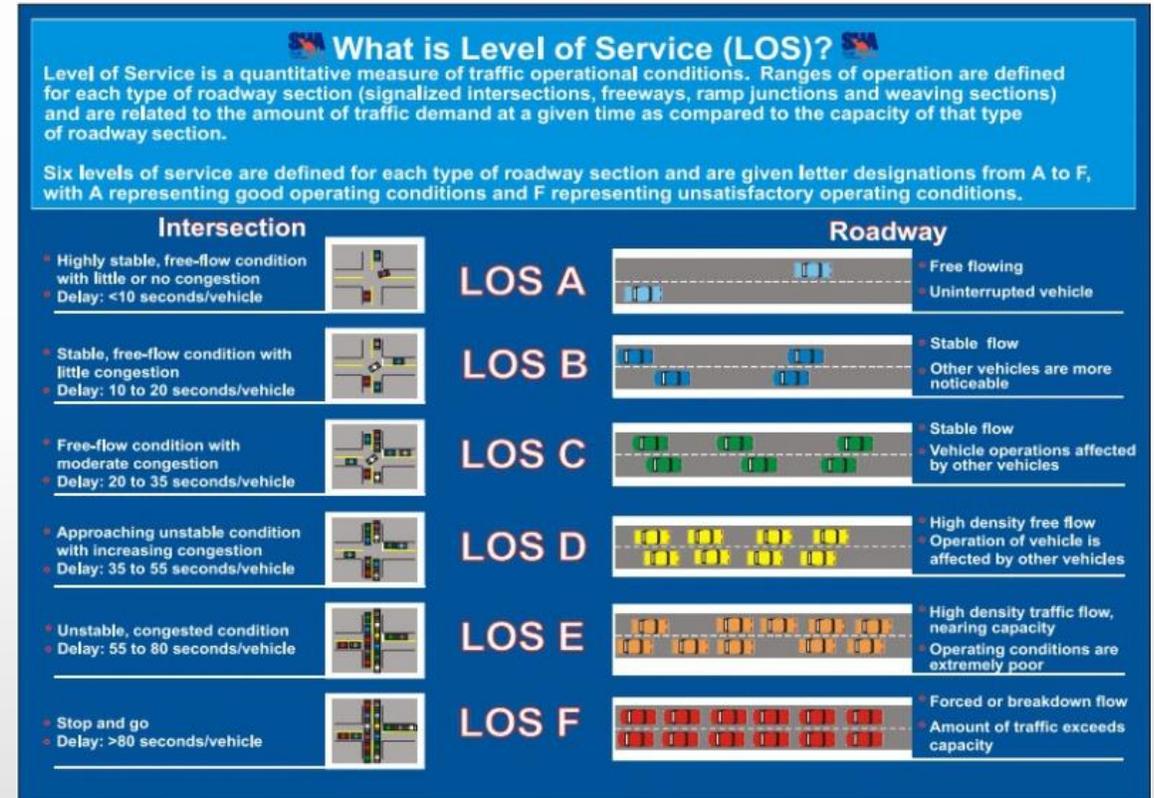

A Site Specific Traffic Impact Study looks at the relationship of the new development to the surrounding roadway network, the access location and the design, inter-connection and cross-access with adjacent neighbor hoods.

Traffic Intersections and Levels of Service:

Traffic Impact Studies can be required to evaluate the level of service (LOS) for nearby intersections as well.

“Signalized intersection level of service (LOS) is defined in terms of the average total vehicle delay of all movements through an intersection. Vehicle delay is a method of quantifying several intangible factors, including driver discomfort, frustration, and lost travel time”.

This information can be used to determine if the development creates the need to provide additional traffic control devices such as traffic lights or roundabouts.

Township Wide Traffic Impact Study:

A Township Wide Traffic Impact Study would provide the same detailed information as a site specific TIS but would utilize the Townships **Future Land Use Map** and **Zoning** to forecast future demand on the public County Roads used by Township residents.

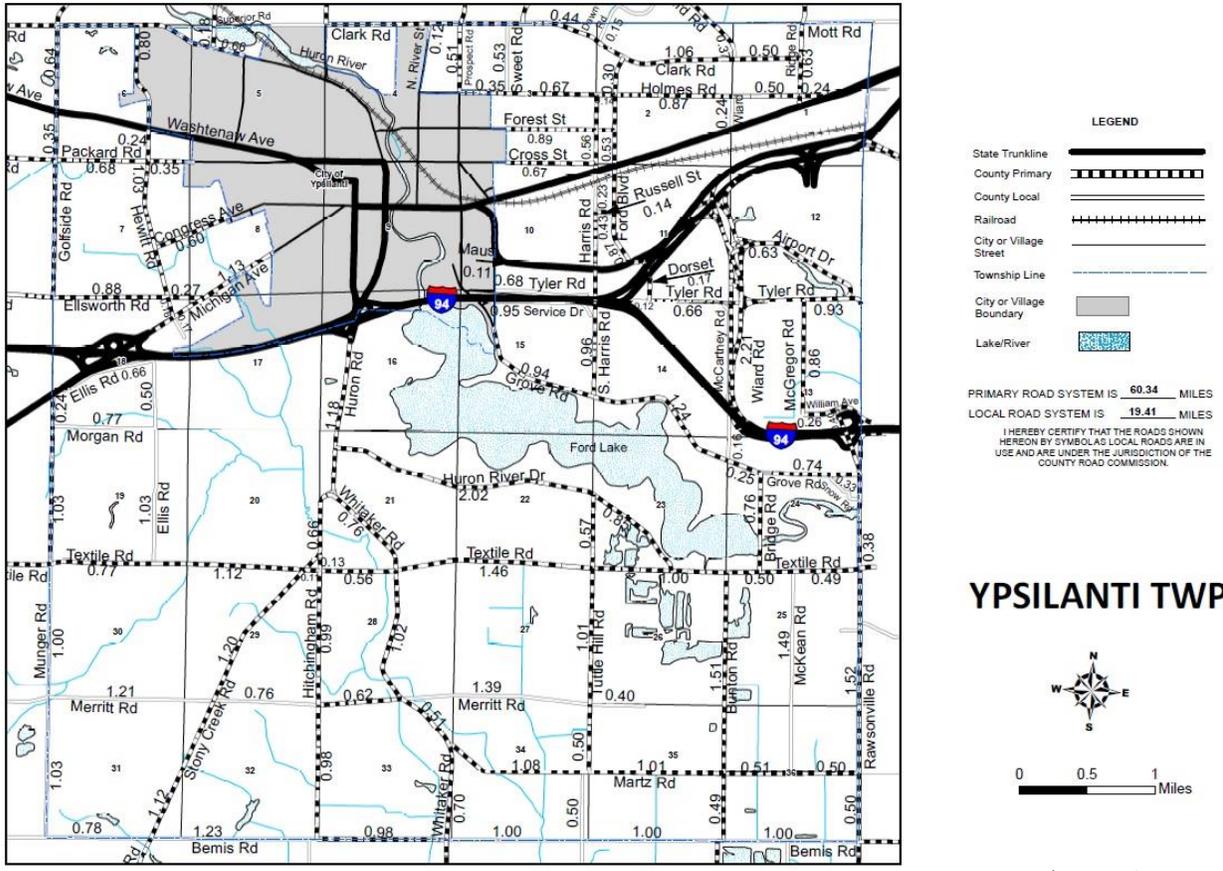

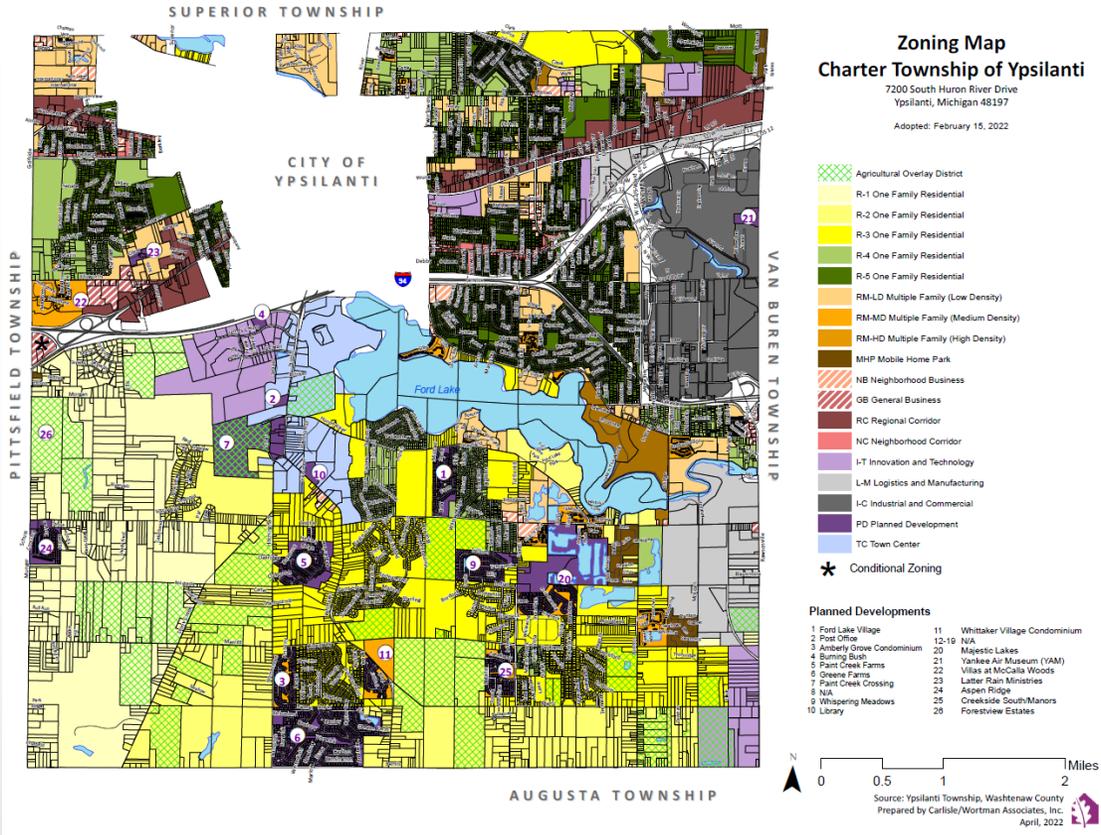

Image: Washtenaw County Road Commission

Township Wide Traffic Impact Study:

The Zoning Ordinance provides standards for density of development which dictates how many single family homes or apartment building can be developed on a specific piece of property.

Further, the Zoning can be used to generate scenarios for future commercial development based on the size and location of commercially zoned property.

These development scenarios based on the Zoning are used to forecast the traffic impacts on local roads for a ten (10) and twenty (20) year growth period. These numbers are compared to the current conditions to determine the need for future road improvements

How is this helpful?

- It provides the Township with the baseline information on the current state of the Townships public roads.
- It helps to identify level of services issues at key intersections throughout the Township, and provides recommendations on how to improve the level of service grade for those intersections that are not acceptable.
- It gives Township leadership and staff the information needed to effectively respond to new development by providing objective data on the impacts a new development will have on the local road system.
- The data can be used by the Township leadership to make sound decisions on directing valuable funding for transportation improvements throughout the Township.
- The information can help when deciding future Zoning districts and requirements in the future.

Why hasn't the Township done this before?

In 1992, the Township Board of Trustees commissioned a Master Plan Update and a “Master Thoroughfare Plan” in order to evaluate the current road conditions and the impact that all the new residential development was going to have on the public road system. At the time the study was done the existing single family housing in the southern half of the Township was 3,289. Based on the proposed housing developments seeking approval that number was going to grow to 9,472. The amount of cars using the roads was forecasted to grow by 100% to 150%. At the time many of the roads were still gravel including Hitchingham, Whittaker, and Textile Roads.

Greene Farms Subdivision

This valuable information became the basis for requiring new developments to make the necessary road improvements based on the Townships duty to promote the health, safety, and welfare of the public.

2022 Township Wide Traffic Impact Study:

It has been thirty (30) years since the last large scale traffic impact study was done within the Township. The Township is in a good position to study the current and forecasted road conditions both north and south of I-94 looking out to 2032 and 2042 based on current Zoning and Future Land Use.

This new traffic impact study would provide the Township leadership and staff the insight to make better decisions today when handling incoming site plans for both residential and non-residential projects .

This data can also be used to make well informed decisions as it relates to funding both motorized and non-motorized improvements throughout the Township.

So where do we go from here?

- The Planning Department with support from the Clerks Office has released a Request for Qualification (RFQ). The request was an invitation to qualified Traffic Engineering Firms to provide the Township with examples of work experience and the demonstration of expertise. **Complete**
- The Township received six (6) responses to the request from qualified Traffic Engineering firms that conduct a study:
 - Anderson Eckstein and Westrick
 - Fishbeck Engineers
 - GHD
 - HRC
 - Michael Baker International
 - OHM Advisors

- The Planning Department is now in the process of finalizing a Request for Proposal (RFP) that will include the specific requirements and specifications that need to be addressed in the Township Wide Traffic Impact Study. **In progress to be completed by June 27th**
- The RFP will be reviewed by the Washtenaw County Road Commission for assistance with nomenclature and providing assistance on what types of traffic data they use as a part of their traffic engineering.
- The Townships legal council will review the document as it pertains to the contractual obligations required as a part of the proposal.
- Once the RFP is completed the Planning Department will bring the proposal to the Township Board for review and approval to seek bids for the work to be completed.
- We would anticipate that the study process would take three (3) to four (4) months to complete. It will be a requirement of the proposal that a final presentation of the study be brought to a Township Board work session upon completion.
- The cost of this study will likely range between \$85,000.00 to \$100,000.00.

Thank You.

IMPROVEMENTS TO CIVIC CENTER AND 14B DISTRICT COURT CAMPUS

CIVIC CENTER

The existing Civic Center building was constructed in 1971 and is a 2-story reinforced concrete and steel structure with exterior masonry wall construction.

First floor of the building is approx. 15,828 gross square feet
Second floor of the building is approx. 16,417 gross square feet

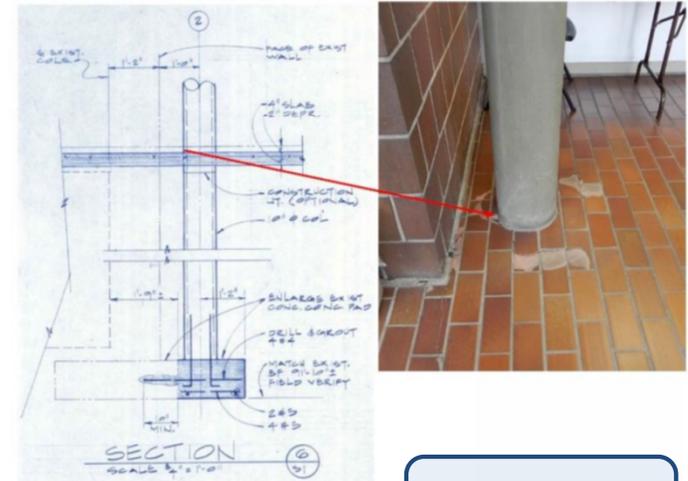

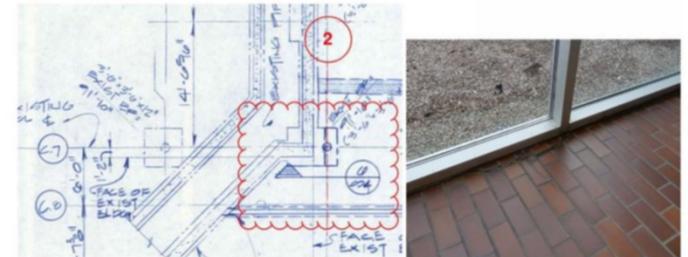

Total existing Civic Center 32,245 gross square feet

There have been few minor building renovations of the past 50 years at the Civic Center with the most recent improvements designed to modernization of the employee break / conference room and the existing ADA facilities within the existing building. The building has not seen any major renovation or remodeling projects and is still very much to the original design configuration and program of the structure.

NEW BUSINESS

1. REQUEST TO APPROVE THE RECOMMENDATION OF THE YPSILANTI TOWNSHIP LIQUOR COMMISSION IN REGARD TO THE APPLICATION OF CHINA PALACE, LLC

A motion was made by Trustee Peterson and seconded by Treasurer Eldridge to approve the recommendation of the Ypsilanti Township Liquor Commission in regard to the application of China Palace, LLC.

Treasurer Eldridge gave a history of a previous application submitted by China Palace, LLC and the current application. He stated that based on issues with the previous application, revocation of a Class C license and information received from the Michigan Liquor Control Commission the township liquor commission did not recommend approval of the application. He added that the revocation expires in six and a half months and they do have the option to purchase a license from escrow.

Attorney for China Palace, LLC, Sal Samaan, stated that another party owned China Palace when their first license was revoked. He added that Keshun Wang is leasing the property from the original owner and does not believe the former owner should have a bearing on the decision. He also added that the store next door to China Palace, New Asia Market, had had a license approved with the same owners.

Attorney Winters stated that he would like to know what happens to the license that has been revoked and will it come back to the township or would the township stand to lose two license to this business if a new license is approved. He added that the board has the responsibility to approve new licenses with judicious due diligence.

Trustee Swanson stated the township liquor commission has contacted the state to find out what happens to the revoked license and that question had not been answered yet.

Trustee Newman confirmed that the recommendation of the township liquor committee is to not approve the license for China Palace, LLC.

The motion carried unanimously.

Trustee Swanson asked what establishing a new branch meant. Mr. Hoffmeister stated that the township is broken up into different branches that are numbered by the county and these new branches will be part of those branch numbers.

Trustee Swanson asked about disturbing the ground and digging and if that would affect the vermin problem. Mr. Hoffmeister answered that three of the four rain

9. REQUEST AUTHORIZATION TO BUILD APPROXIMATELY 800 FEET OF CONCRETE SIDEWALK ALONG STATE ST. BETWEEN DESOTO AVE. AND GLENGROVE AVE. AS PART OF AN EXISTING IMPROVEMENT PROJECT BEING DONE BY YCUA IN THE AMOUNT OF \$134,000.00 BUDGETED IN LINE ITEM #101-446-982-000 CONTINGENT UPON APPROVAL OF THE BUDGET AMENDMENT AND ATTORNEY APPROVAL OF THE AGREEMENT

A motion was made by Treasurer Eldridge and seconded by Trustee Newman to authorize the building of approximately 800 ft. of concrete sidewalk along State. St. between Desoto Ave. and Glengrove Ave. as part of an existing improvement project being done by YCUA in the amount of \$134,000.00 budgeted in line item #101-446-982-000 contingent upon approval of the budget amendment and attorney approval of the contract.

Mike Hoffmeister, Residential Services Director stated that the YCUA was working on a capital improvement project for the State St. pump station and had also bid out the construction of a sidewalk area between Desoto and Glengrove.

Clerk Jarrell Roe stated that she had driven by the area and seen residents out walking and kids playing in the area and that she thought the sidewalk would be beneficial there.

Trustee Swanson spoke about adding fiber optic line underground in this area while the earth is already disturbed.

Attorney Winters commented that the price seemed a little high. Mr. Hoffmeister answered that this line item for the sidewalk was not the lowest price in the bid that was chosen by YCUA.

Trustee Newman asked if it would be possible to go back and look for another vendor to try and get a lower price. Clerk Jarrell Roe answered that this project occurred in an unusual way in that YCUA approached the township to see if we would be interested in adding this sidewalk piece to their project since the area would be disrupted anyway.

Trustee Peterson asked if this work had already started. Clerk Jarrell Roe stated that YCUA had started work on the State St. pump project.

Trustee Swanson stated that she thought it was a good policy to work together with other entities in projects like this, but that she would also like to see the township get a reasonable price, as well.

The motion carried unanimously.

Clerk Jarrell Roe stated that Ernat Consulting was the same group that had helped the township secure the recycling grant. She added that the three full time officials and Accounting Director Javonna Neel had met with Ernat Consulting and this project would seek grant funding to connect the eight parks around Ford Lake.

Trustee Swanson asked if the boardwalk at North Bay could be added into this. Clerk Jarrell Roe answered that she believed Mike Hoffmeister was looking at a different grant for updates to North Bay Park.

The motion carried unanimously.

11. REQUEST TO APPROVE AN AGREEMENT WITH THE WASHTENAW COUNTY ROAD COMMISSION FOR THE INSTALLATION OF FIVE (5) SPEED HUMPS ON WALLACE BLVD. FOR \$45,015.50 BUDGETED IN LINE ITEM #101-446-982-000 CONTINGENT UPON APPROVAL OF THE BUDGET AMENDMENT

A motion was made by Treasurer Eldridge and seconded by Trustee Swanson to approve an agreement with the Washtenaw County Road Commission for the installation of five (5) speed humps on Wallace Blvd. for \$45,015.50 budgeted in line item #101-446-982-000 contingent upon approval of the budget amendment (see attached).

Trustee Peterson asked about the road commission surveying the area and how the petitions are received. Clerk Jarrell Roe answered that residents first contact the road commission to request speed humps, the road commission will review to see if speed humps would work in the areas, then the road commission will give the requesting residents the petitions. She added that once the petitions are complete they are returned to the township for verification by the Assessing Dept.

The motion carried unanimously.

AUTHORIZATIONS AND BIDS

1. REQUEST TO AWARD THE LOW BID FOR FOUR (4) NEW FORD EXPLORERS IN THE AMOUNT OF \$150,060.00 TO FELDMAN AUTOMOTIVE GROUP BUDGETED IN LINE ITEM #661-268-985-000

A motion was made by Treasurer Eldridge and seconded by Trustee Newman to award the low bid for four new Ford Explorers in the amount of \$150,060.00 to Feldman Automotive Group budgeted in line item #661-268-985-000.

Clerk Jarrell Roe stated that these vehicles would replace old vehicles in our Ordinance Department. She added that she was surprised to learn we still operate cars from the 1980's and 1990's and that these cars cost more for operating and maintenance costs.

Trustee Newman asked what will happen to the old vehicles. Clerk Jarrell Roe stated that newest vehicles go to the departments who drive the most and those vehicles that are being replaced could go to departments that do not need a vehicle very often to use and the oldest vehicles would be auctioned off.

Trustee Swanson stated that it looked like there was one vehicle in the bid that was an additional \$12,000.00 and asked if this was included in the amount requested.

The motion carried unanimously.

OTHER BUSINESS

There was no other business discussed.

BOARD MEMBER UPDATES

Clerk Jarrell Roe gave an update on the ARPA Committee. She also stated that the Clerk's Office continues to receive applications for the upcoming August and November elections and that the office is now processing passports by appointment only.

Clerk Jarrell Roe confirmed that the amount requested for the Ford Explorers is correct because the base model Explorer does not come with a limited slip axle that was in the original bid specifications.

A motion was made by Trustee Peterson and supported by Treasurer Eldridge to Adjourn.

Ypsilanti Charter Township
7200 Huron River Dr.
Ypsilanti, MI 48197

Dear Supervisor Stumbo,

At the request of the Township Executive Team, Ernat Consulting has reviewed the Township's Master Plan, Non-Motorized Plan, and various transportation plans from Washtenaw County and SEMCOG. In reviewing the plans, we believe the Lake Loop plan identified in the non-motorized plan that would utilize multi-use paths to connect the Civic Center, eight parks, and Ford Lake, Bridge Grove and South Huron Streets would be a central project to further develop.

The impetus for this recommendation is based in several funding sources targeting competitive non-motorized plans that are currently available for competitive projects. For the Transportation Alternatives Program (TAP) MDOT has \$25 million to award to projects throughout the State and SEMCOG has an additional \$10 million to fund projects. MDOT is focusing on projects that increase facilities for pedestrians and bicycles, safe routes to schools, and stormwater infrastructure related to transportation. SEMCOG is planning to award up to \$500,000 to any given shovel ready project that promotes transportation equity, complete streets, trails, electric vehicles, or stormwater management.

There are additional funds available through the County Roads Commission and Park Commission as well as the DNR Trust Fund.

Competitive projects in the past require coordination of multiple resources and funding sources. The most desirable projects currently combine safety, connectivity, and sidewalk/shared use path modernization. Competitive projects also highlight park systems and recreation opportunities.

The Lake Loop project captures the goals of these fundings sources and provides connectivity throughout the Township. This project touches all sections of the Township and all the major recreation opportunities throughout.

Ernat Consulting is well positioned to prepare a grant application on behalf of Ypsilanti Charter Township. The application deadline for funding is a rolling deadline. The goal would be to create a shovel ready project to present for consideration by February 2023. The grant is only for shovel ready projects. The

MEMORANDUM

TO: Charter Township of Ypsilanti Board of Trustees

FROM: Karen Wallin, Human Resource Manager

CC: Mike Hoffmeister, Residential Services Director
John Hines, Recreation Director

DATE: July 13, 2022

RE: **Creation of a non-union salaried “Public Relations Manager” position, and rename Teamster position “Web Content & Design” to “Public Relations Specialist” reporting to the “Public Relations Manager”.**

Public Relations Director

Back in May 2022, I approached the Board of Trustees regarding the creation of a Public Relations/Communications Department. Following feedback given at that May meeting and further research, the following is being brought back for consideration of the Board.

The attached updated “draft” job description for “Public Relations Manager”, addresses concerns the Board brought forward in May. For a while it has been identified as a goal to create a position within the Township to help streamline all communications and marketing efforts. This position would fall directly under the supervision of the Township Supervisor and be responsible for planning, developing and deploying all township communications. They would also be responsible for marketing and public relations related to web applications, press releases, social media and creation of all media communications. This department would serve as the central resource for township staff regarding the dissemination of information and also market the new Township brand/logo.

We would like to recommend hiring a “**Public Relations Manager**” (job description attached) with a starting salary of \$68,000 - \$70,000 (DOQ).

Public Relations Specialist

In addition, it is being recommended that the current Teamster position, “Web Content & Design” be renamed to “Public Relations Specialist” (job description attached) and have the position report directly to the Public Relations Manager.

The duties of this position, include planning, developing and deploying text, graphics, audio and video for the township’s social media markets; update web pages to ensure accuracy and currency, and perform periodic web site audits. As these duties are closely related to those of the Public Relations Manager, it is being proposed to move this position to fall under the Public Relations Manager instead of the I.T. Manager.

The current salary for this position is \$20.35/hour (\$42,328/annually). We are also recommending that this position receive a market wage adjustment from \$42,328/annually to \$50,000/annually, bringing the wage more in line with the market.

During my additional research I received additional feedback from other municipalities that have recently developed this type of department. This type of department is looked at being progressive to help with public relations and truthfully lacking within local government. Areas that other local government offices have found this type of department useful include: press releases; information on dog licensing, voting, passports, recreation and golf, etc; developing and providing FAQs for staff to provide consistent answers and responses to residents; create and standardize internal and external forms with new branding and logo material. The skillsets have proven to be very beneficial and used more than expected.

I’ve also been working with the Accounting Director, Javonna Neel, establishing a department fund with line item allocations to include in the 2023 budget.

Your consideration in approving this new department and position is appreciated. Please feel free to contact me with any additional questions.

CHARTER TOWNSHIP OF YPSILANTI

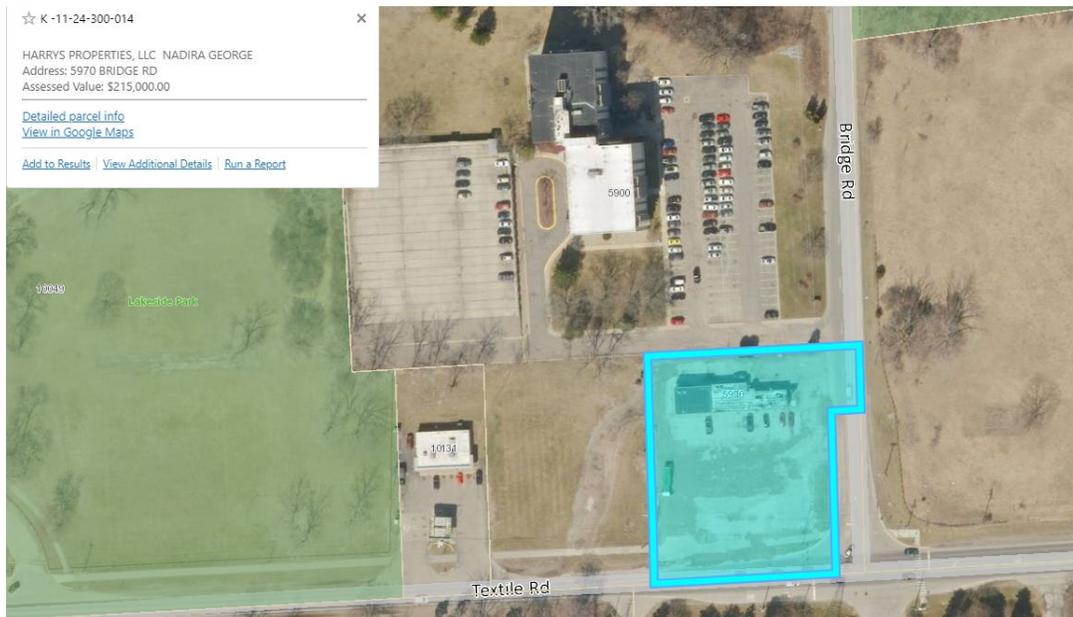

OFFICE OF COMMUNITY STANDARDS

Building Safety • Planning & Zoning • Ordinance Enforcement • Police Services

To: Heather Jarrell Roe, Clerk
From: Belinda Kingsley, Community Compliance Director
Re: **Request to authorize circuit court litigation to abate public nuisances located at 5970 Bridge Road and 8 June in the amount of \$10,000 each from account 101-729-801.023.**
Copy: McLain & Winters, Township Attorneys
Date: July 13, 2022

The Office of Community Standards (OCS) has investigated public nuisances at the following locations for which authorization to engage in circuit court is now requested.

5970 BRIDGE ROAD – ROUND HAUS PARTY SHOPPE

CHARTER TOWNSHIP OF YPSILANTI

CHARTER TOWNSHIP OF YPSILANTI

The Round Haus Party Shoppe has long been in existence in the Township. Over the years the owners have sought approval from the Township to reconstruct their building, add gas pumps and sell fireworks from a tent in the parking lot. Proposed site plans have been submitted and approved in 2009, 2016 and 2019. Unfortunately none of the projects moved forward from the preliminary approval phase, and expired after one year. The most recent site plan to construct a 6,000 sf convenience store and four fuel pump islands was approved in May 2019, and expired in May 2020.

During the multiple site plan attempts the property has not been maintained. In particular, the parking lot has deteriorated to the point that approval was not granted for a fireworks tent in 2022. It is not considered safe for the public to use portions of the parking lot, and in general the parking lot does not meet the Zoning Ordinance standards. An attempt to repair a portion of the parking lot was made recently, but overall it remains an unsafe nuisance.

The property owner has been reluctant to make the requested repairs under the assumption that they would eventually be removing the parking lot to construct a new building. At this point, after several unexecuted site plans and multiple requests from the Township, it does not seem likely that the property owner will comply with the ordinance and replace the entire parking lot. The most recent request to replace the parking lot was issued by Ordinance on 4/27/22, and a lengthy amount of time to comply was provided until 7/1/22.

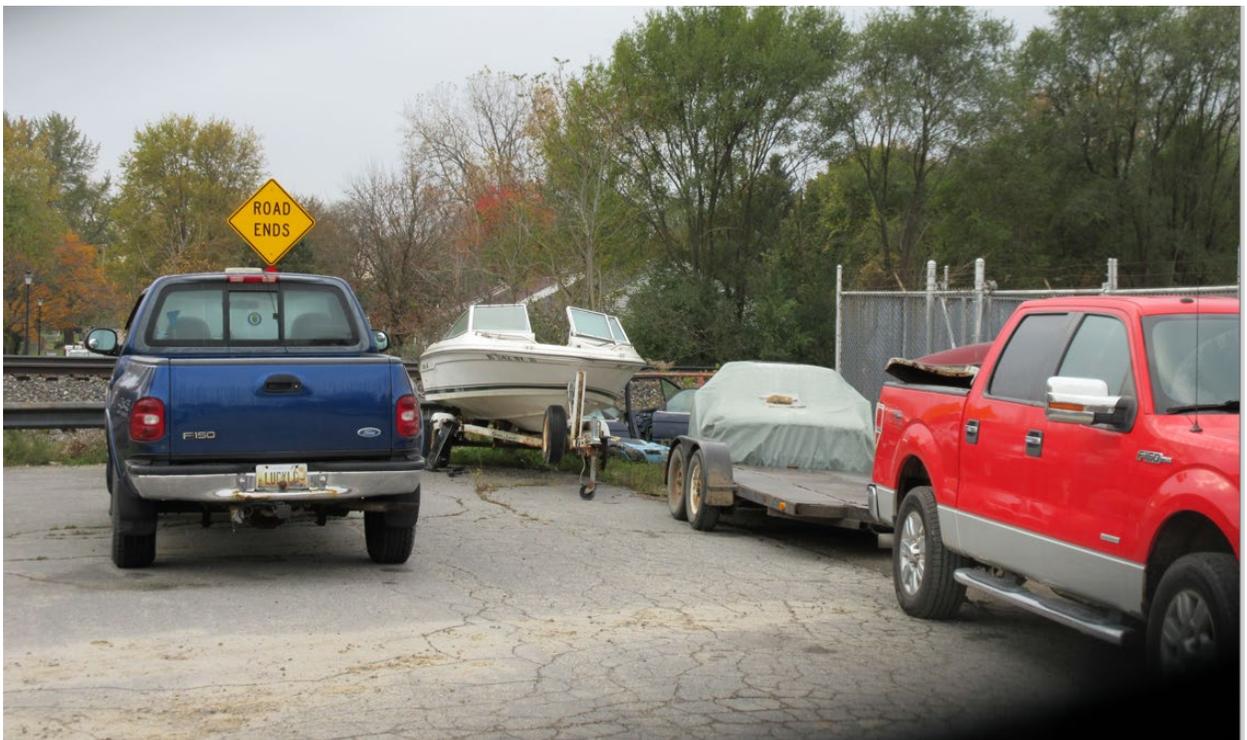

A meeting was held on May 12, 2022, between the property owner and the township. The Township's concerns were provided in detail, including the reason for denial of the fireworks tent. Again, the property owner stated his desire to replace the building and parking lot. Two months have passed since that meeting without a site plan submission. Based on the history of site plan submittals, approvals and expiration, legal action is now requested as a last resort to abate this public nuisance.

CHARTER TOWNSHIP OF YPSILANTI

8 JUNE STREET

CHARTER TOWNSHIP OF YPSILANTI

Township Ordinance received complaints from neighboring properties regarding the large number of inoperable vehicles on the site. The current use of the property is a major automotive repair facility. The Township records do not show an approval for this use, but the owner claims that it has been in existence since before he purchased the property.

CHARTER TOWNSHIP OF YPSILANTI

There are two bays being utilized for this business, and without a site plan approving parking the maximum number of cars that should be on-site are six (6), plus employee vehicles. The initial Ordinance inspection on November 4, 2021, confirmed that there were an excessive number of vehicles parked inside the fenced area, along with utility trailers, boats, recreational vehicles and motorcycles. Additionally, there were vehicles and trailers parked in the right-of-way, including the middle of the street at the dead end. Vehicles parked in the right-of-way were denying other businesses access.

In addition to the vehicles, the business was also storing auto parts, a washing machine, building materials and other blight outside, providing harborage for vermin. The building has a second story that was condemned by the Building Department in March 2019. It was being used as an apartment, without Township approval, and has not been brought up to code or approved for any use at this time.

The Ordinance Department has attempted to resolve the issue of excessive vehicle storage and blight with the tenant and the property owner. After continued delays and lack of cooperation legal action is now requested as a last resort to abate this public nuisance.

Thank you for your consideration and your continued support for our public nuisance abatement efforts.

The Contractor shall take all responsibility for the work and shall provide barricades, watchmen and lights, and take all precautions for preventing injuries to persons and property on or about the work; shall bear all losses resulting to him on account of the amount or character of the work or because the nature of the ground in which the work is done is different from what was estimated or expected, or on account of weather, floods, elements or other cause; and shall assume defense of, indemnify and save harmless the party of the first part and its individual officers and agents from all claims relating to labor, equipment and materials furnished for the work, inventions, patents and patent rights used in doing the work, also to injuries to any person or property received or sustained by or from the CONTRACTOR, his agents or employees.

The mention of any specific duty or liability of the CONTRACTOR in any part of the specifications shall not be construed as a limitation or restriction upon any general liability or duty imposed upon the CONTRACTOR by the specifications.

INDEMNIFICATION - HOLD HARMLESS AGREEMENT

The CONTRACTOR agrees to indemnify, defend, and save harmless the OWNER and ENGINEER, their consultants, agents, and employees, from and against all loss or expense (including costs and attorney's fees) by reason of liability imposed by law upon the OWNER and ENGINEER, their consultants, agents, and employees for damages to property and for damages because of bodily injury, including death at any time resulting therefrom, arising out of or in consequence of the performance of this work, whether such injuries to persons or damage to property is due, or claimed to be due, to the negligence of the CONTRACTOR, his subcontractors, the OWNER, the ENGINEER, and their consultants, agents, and employees, except only such injury or damage as shall have been occasioned by the sole negligence of the

OWNER, the ENGINEER, and their agents and/or consultants.

COMPOSITION OF THE CONTRACTOR

If the CONTRACTOR hereunder is comprised of more than one legal entity, each such entity shall be jointly and severally liable hereunder.

2. INSURANCE

2.1. Insurance Required of the CONTRACTOR:

Prior to commencement of work, the CONTRACTOR shall purchase and maintain during the term of the project such insurance as will protect him, the OWNER(s), and Orchard, Hiltz & McCliment, Inc., Consulting Engineers, from claims arising out of the work described in this Contract and performed by the CONTRACTOR, subcontractor(s) or sub-subcontractor(s) consisting of:

2.1.1. Workers' Compensation Insurance including Employer's Liability to cover employee injuries or disease compensable under the Workers' Compensation Statutes of the states in which work is conducted under this Contract; disability benefit laws, if any; or Federal compensation acts such as U.S. Longshoremen or Harbor Workers', Maritime Employment, or Railroad Compensation Act(s), if applicable. Self-insurance plans approved by the regulatory authorities in the state in which work on this project is performed are acceptable.

2.1.2. A Comprehensive General Liability policy to cover bodily injury to persons other than employees and for damage to tangible property including loss of use thereof, including the following exposures:

- A. All premises and operations.
- B. Explosion, collapse and underground damage.

- C. Contractor's Protective coverage for independent contractors or subcontractors employed by him.
 - D. Contractual Liability for the obligation assumed in the Indemnification or Hold Harmless agreement found under Part I of this Section.

- 2.1.3. In light of the standard policy provisions concerning (a) loading and unloading, and b) definitions pertaining to motor vehicles licensed for road use vs. unlicensed or self-propelled construction equipment, it is strongly recommended that Comprehensive General Liability and Comprehensive Auto Liability be written by the same insurance carrier, though not necessarily in one policy.
- 2.1.4. CONTRACTOR will purchase for the OWNER an Owner's Protective Liability policy to protect the OWNER; the ENGINEER (Orchard, Hiltz & McCliment, Inc.); their consultants, agents, employees and such public corporations in whose jurisdiction the work is located for their contingent liability for work performed by the CONTRACTOR, the subcontractor(s) or the sub-subcontractor(s) under this Contract.
- 2.1.5. CONTRACTOR shall purchase a Builder's Risk-Installation Floater in a form acceptable to the OWNER covering property of the project for the full cost of replacement as of the time of any loss which shall include, as named insureds, (a) the CONTRACTOR, (b)

Coverage shall be effected on an "All Risk" form, including but not limited to the perils of fire, wind, collapse, vandalism, theft and earthquake, with exclusions normal to the cover. The CONTRACTOR may arrange for such deductibles as he deems to be within his ability to self-assume, but he will be held solely responsible for the amount of such deductible and for any co-insurance penalties. Any insured loss shall be adjusted with the OWNER and CONTRACTOR and paid to the OWNER and CONTRACTOR as Trustee for the other insureds.

2.1.6. Umbrella or Excess Liability

The OWNER or its representative may, for certain projects, require limits higher than those stated in paragraph 2.2 that follows. CONTRACTOR is granted the option of arranging coverage under a single policy for the full limit required or by a combination of underlying policies with the balance provided by an Excess or Umbrella Liability policy equal to the total limit(s) requested. Umbrella or Excess policy wording shall be at least as broad as the primary or underlying policy(ies) and shall apply both to the CONTRACTOR's general liability and to his automobile liability insurance.

2.1.7. Railroad Protective Liability

Where such an exposure exists, the CONTRACTOR will provide coverage in the use of each railroad company having jurisdiction over rights-of-way across which work under the Contract is to be performed. The form of policy and limits

of liability shall be determined by the railroad company(ies) involved.

2.2. Limits of Liability

Ypsilanti Township Fire Department, Ypsilanti, MI – Sales Contract

THIS CONTRACT (“Contract”) is made by and between CSI Emergency Apparatus (“CSI”) and the **Ypsilanti Twp Fire Department, Ypsilanti, Michigan** (“Customer”). This Contract will not become binding upon CSI until it is executed by an officer of CSI, and the effective date of the Contract (“Effective Date”) will be the date that the CSI officer executes the Contract. The parties hereby agree as follows:

- I. Subject to the terms of this Contract, CSI shall represent Spartan ER to furnish, and the Customer shall purchase, the apparatus and equipment (“Apparatus and Equipment”) described and in accordance in all material respects with the specifications (“Original Customer Specifications”) submitted with the Spartan bid proposal (the “Bid Proposal”). In the event there is any conflict between original customer specification and the bid proposal, the bid proposal will prevail.
- II. This Contract for Apparatus and Equipment conforms to all Federal Department of Transportation (DOT) and Environmental Protection Agency (EPA) rules and regulations and to all National Fire Protection Association (NFPA) Guidelines for Automotive Fire Apparatus in effect as of the Effective Date, unless noted otherwise in the Bid Proposal.
- III. Spartan shall have the apparatus ready for final inspection and delivery to CSI from Spartan’s Brandon South Dakota facility, within **365** days, excluding any additional dealer make ready days described below. This delivery timeframe is subject to modification if there are customer driven delays to holding any construction meeting and/or if there are customer driven delays to returning the corresponding signed CO’s to the factory. All change orders must be approved by the date designated on the Spartan provided change order or the added days of production noted on the change order will be added to the above-mentioned delivery timeframe. Any further delays after the pre-construction has been completed in providing additional desired specifications, change approvals, inspection timelines, or other required information for the Apparatus and Equipment may result in an extension of the above referenced delivery timeline by the amount of time Spartan requires, in its sole but reasonable discretion, to furnish the Apparatus and Equipment following Customer’s delay, but in any event by at least the duration of Customer’s delay.
- IV. In exchange for the Apparatus and Equipment, Customer agrees to pay the sum of **One Million Eight Hundred Ninety Eight Thousand Five Hundred and Forty Dollars (\$ 1,898,540.00)** (“Purchase Price”).

The final balance payment of **\$1,898,540.00** is due upon delivery to Customer. Project changes orders as approved by the purchasing authority will be applied to the final invoice. Interest at 18 percent per annum, payable monthly, shall be charged on all past due payments.

The Apparatus shall NOT be placed in service prior to payment in full, NO EXCEPTIONS.

- V. Any applicable taxes not specified or noted above will be paid by Customer directly. If Customer claims exemption from any tax, Customer’s applicable exemption certificate shall be provided with this contract or your Tax ID number provided below to hold CSI harmless from any such tax, interest or penalty which may at any time be assessed against CSI.
- VI. Acceptance of Apparatus and Equipment shall occur after completion of a final inspection by a representative of Customer at a factory location of Spartan, completion of any discrepancy list, and shipment of Apparatus and Equipment from Spartan’s factory location. Upon completion of the final inspection and related discrepancy list, the Apparatus and Equipment shall be conclusively determined to be in full compliance with the terms of this

Contract, less CSI dealer up-fit item and loose equipment outlined as such in the Bid Proposal. CSI will not surrender the title to or the statement of origin for any Apparatus or Equipment or provide Customer with any other documentation regarding ownership of any Apparatus or Equipment until CSI has received full payment of the Purchase Price (and taxes if applicable).

- VII. Customer shall indemnify CSI against, and hold CSI, its agents, employees, officers and directors harmless from, any and all claims, action, suits and proceedings, costs, expenses, damages and liabilities, whether based in negligence, tort, strict liability or otherwise, including attorney's fees and costs, arising out of, connected with, or resulting from this Contract or the Apparatus or Equipment, except to the extent such claims, action, suits and proceedings, costs, expenses, damages or liabilities arise from CSI's breach of its obligations under this Contract.
- VIII. CSI or Spartan shall not be liable if performance failure arises out of causes beyond its reasonable control, which causes shall include without limitation acts of God, war, fires, floods, freight embargoes, order of any court, strike, lockout, failure or delays by suppliers or contractors, or legislative or governmental, or other, prohibitions or restrictions.
- IX. Any order or contract resulting from this proposal shall be cancelable only under terms that will indemnify CSI from loss.
- X. The Apparatus and Equipment shall remain the property of CSI until the entire Purchase Price for each item of Apparatus and Equipment has been paid. In case of a default in payment, CSI may take full possession of the Apparatus and Equipment, or of the item or items upon which default has been made, and any payments that have been made shall be applied as payment for the use of the Apparatus and Equipment up to the date CSI takes possession.
- XI. This Contract will only be binding after it is signed and approved by the customer and an officer of CSI. This Contract (which includes the other documents referenced in this Contract) embody the entire agreement and understanding between the parties with respect to the subject matter of this Contract and supersede all prior oral or written agreements and understandings relating to the subject matter of this Contract. No statement, representation, warranty, covenant, or agreement of any kind not expressly set forth in this Contract shall affect, or be used to interpret, change or restrict, the express terms and provisions of this Contract. TERMS AND CONDITIONS

(1) What is Covered by this Commercial Warranty?

Meritor Heavy Vehicle Systems, LLC warrants to the owner ("Owner") that the components listed in this publication, which have been installed by an Original Equipment Manufacturer ("OEM") as original equipment in vehicles licensed for on-highway use, will be free from defects in material and workmanship. This warranty coverage begins only after the expiration of the OEM's vehicle warranty for the applicable covered components. Warranty coverage ends at the expiration of the applicable time period from the date of vehicle purchase by the first Owner or the applicable mileage limitation, whichever occurs first. Duration of coverage varies by component and vocation as detailed elsewhere in this warranty statement.

Some components are warranted for parts only and the Owner must pay any labor costs associated with the repair or replacement of the component. Other components are warranted for both parts and reasonable labor to repair or replace the subject component. Components (whether new, used or remanufactured) installed as replacements under this warranty are warranted only for the remainder of the original period of time or mileage under the original warranty.

For certain components, coverage requires the use of specific extended drain interval or synthetic lubricants. For further information about lubrication and maintenance, see Meritor publication Maintenance Manual Number 1 and the applicable Meritor maintenance manual for the product in question. Other conditions and limitations applicable to this warranty are detailed below.

(2) Designation of Vocational Use Required.

To obtain warranty coverage, each Owner must notify Meritor through the OEM new truck and/or trailer dealer of the intended vocational use of the vehicle into which the Meritor components have been incorporated prior to the vehicle in-service date. This notification may be accomplished by registering the vehicle through your OEM new truck and/or trailer dealer or with Meritor directly. Failure to notify Meritor of (I) the intended vocational use of the vehicle or (II) a change in vocational use from that which was originally designated, will result in the application of a one year, unlimited mileage, parts only warranty (1/Unl/P) from the initial in-service date.

A second Owner and each subsequent Owner must also notify Meritor as to the intended vocational use of the vehicle. This notification can be sent directly to Meritor or through the OEM new truck and/or trailer dealer. The duration and mileage coverage of this warranty cannot exceed the coverage extended to the first Owner after his or her initial designation of vocational use.

Coverage under Meritor's warranty requires that the application of products be properly approved pursuant to OEM and Meritor approvals. Refer to TP-9441 for axles, SP-8320 for trailer axles, TP-12126 for drivelines and/or contact Meritor regarding specific application approval questions on any product line.

(3) What is the Cost of this Warranty?

There is no charge to the Owner for this warranty.

(4) What is not Covered by this Warranty?

This warranty does not cover normal wear and tear; nor does it cover a component that fails, malfunctions or is damaged as a result of (I) improper installation, adjustment, repair or modification (including the use of unauthorized attachments or changes or modification in the vehicle's configuration, usage or vocation from that which was originally approved by Meritor), (II) accident, natural disaster, abuse or improper use (including loading beyond the specified maximum vehicle weight or altering engine power settings to exceed the axle and/or driveline capacity) or (III) improper or insufficient maintenance (including deviation from approved lubricants, change intervals or lube levels). This warranty does not cover any component or part that is not branded by Meritor. For vehicles that operate full or part time outside of the United States and Canada, a one year, unlimited mileage, parts only warranty (1/Unl/P) will apply.

(5) Remedy.

The exclusive remedy under this warranty shall be the repair or replacement of the defective component at Meritor's option. Meritor reserves the right to require that all applicable failed materials are available and/or returned to Meritor for review and evaluation.

(6) Disclaimer of Warranty.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES OR CONDITIONS, EXPRESSED, IMPLIED OR STATUTORY INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

(7) Limitation of Remedies.

In no event shall Meritor be liable for special, incidental, indirect or consequential damages of any kind or under any legal theory, including, but not limited to, towing, downtime, lost productivity, cargo damage, taxes or any other losses or costs resulting from a defective covered component.

(8) To Obtain Service.

If the Owner discovers within the applicable coverage period a defect in material or workmanship, the Owner must promptly give notice to either Meritor or the dealer from which the vehicle was purchased. To obtain service, the vehicle must be taken to any participating OEM new truck and/or trailer dealer or authorized Meritor service location. The dealer will inspect the vehicle and contact Meritor for an evaluation of the claim. When authorized by Meritor, the dealer will repair or replace during the term of this warranty any defective Meritor component covered by this warranty.

(9) Entire Agreement.

This is the entire agreement between Meritor and the Owner about warranty and no Meritor employee or dealer is authorized to make any additional warranty on behalf of Meritor. This agreement allocates the responsibilities for component failure between Meritor and the Owner.

Cummins Warranty

Worldwide
Fire Apparatus/Crash Trucks

Coverage

Products Warranted

This Warranty applies to new diesel Engines sold by Cummins and delivered to the first user on or after April 1, 2007, that are used in fire apparatus truck and crash truck* applications Worldwide.

Base Engine Warranty

The Base Engine Warranty covers any failures of the Engine which result, under normal use and service, from a defect in material or factory workmanship (Warrantable Failure). This Coverage begins with the sale of the Engine by Cummins and ends five years or 100,000 miles (160,935 kilometers), whichever occurs first, after the date of delivery of the Engine to the first user.

Engine aftertreatment components included in the Cummins Critical Parts List (CPL) and marked with a Cummins part number are covered under Base Engine Warranty.

Additional Coverage is outlined in the Emission Warranty section.

These Warranties are made to all Owners in the chain of distribution and Coverage continues to all subsequent Owners until the end of the periods of Coverage.

Cummins Responsibilities

Cummins will pay for all parts and labor needed to repair the damage to the Engine resulting from a Warrantable Failure.

Cummins will pay for the lubricating oil, antifreeze, filter elements, belts, hoses and other maintenance items that are not reusable due to the Warrantable Failure.

Cummins will pay for reasonable labor costs for Engine removal and reinstallation when necessary to repair a Warrantable Failure.

Cummins will pay reasonable costs for towing a vehicle disabled by a Warrantable Failure to the nearest authorized repair location. In lieu of the towing expense, Cummins will pay reasonable costs for mechanics to travel to and from the location of the vehicle, including meals, mileage and lodging when the repair is performed at the site of the failure.

Owner Responsibilities

Owner is responsible for the operation and maintenance of the Engine as specified in Cummins Operation and Maintenance Manuals. Owner is also responsible for providing proof that all recommended maintenance has been performed.

Before the expiration of the applicable Warranty, Owner must notify a Cummins distributor, authorized dealer or other repair location approved by Cummins of any Warrantable Failure and make the Engine available for repair by such facility. Except for Engines disabled by a Warrantable Failure, Owner must also deliver the Engine to the repair facility.

Service locations are listed on the Cummins Worldwide Service Locator at cummins.com.

Owner is responsible for the cost of lubricating oil, antifreeze, filter elements and other maintenance items provided during Warranty repairs unless such items are not reusable due to the Warrantable Failure.

Owner is responsible for communication expenses, meals, lodging and similar costs incurred as a result of a Warrantable Failure.

Owner is responsible for non-Engine repairs and for "downtime" expenses, cargo damage, fines, all applicable taxes, all business costs and other losses resulting from a Warrantable Failure.

Owner is responsible for a \$100 (U.S. Dollars) deductible per each service visit under this plan in the 3rd, 4th and 5th years of Base Engine Warranty. The deductible will not be charged during the first 2 years of the Base Engine Warranty.

Limitations

Cummins is not responsible for failures or damage resulting from what Cummins determines to be abuse or neglect, including, but not limited to: operation without adequate coolants or lubricants; overfueling; overspeeding; lack of maintenance of lubricating, cooling or intake systems; improper storage, starting, warm-up, run-in or shutdown practices; unauthorized modifications of the Engine.

Any unauthorized modifications to the aftertreatment could negatively effect emissions certification and void Warranty.

Cummins is also not responsible for failures caused by incorrect oil, fuel or diesel exhaust fluid or by water, dirt or other contaminants in the fuel, oil or diesel

exhaust fluid.

This Warranty does not apply to accessories supplied by Cummins which bear the name of another company. Such non-warranted accessories include, but are not limited to: alternators, starters, fans, air conditioning compressors, clutches, filters, transmissions, torque converters, vacuum pumps, power steering pumps, fan drives and air compressors. Cummins branded alternators and starters are covered for the first two years from the date of delivery of the Engine to the first user, or the expiration of the Base Engine Warranty, whichever occurs first.

Failures resulting in excessive oil consumption are not covered beyond the duration of the Coverage or 100,000 miles (160,935 kilometers) or 7,000 hours from the date of delivery of the Engine to the first user, whichever of the three occurs first. Before a claim for excessive oil consumption will be considered, Owner must submit adequate documentation to show that consumption exceeds Cummins published standards.

Failures of belts and hoses supplied by Cummins are not covered beyond the first year from the date of delivery of the Engine to the first user or the duration of the Warranty, whichever occurs first.

Parts used to repair a Warrantable Failure may be new Cummins parts, Cummins approved rebuilt parts or repaired parts. Cummins is not responsible for failures resulting from the use of parts not approved by Cummins.

A new Cummins or Cummins approved rebuilt part used to repair a Warrantable Failure assumes the identity of the part it replaced and is entitled to the remaining Coverage hereunder.

Cummins Inc. reserves the right to interrogate Electronic Control Module (ECM) data for purposes of failure analysis.

CUMMINS DOES NOT COVER WEAR OR WEAROUT OF COVERED PARTS.

CUMMINS IS NOT RESPONSIBLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES.

THIS WARRANTY AND THE EMISSION WARRANTY SET FORTH HEREINAFTER ARE THE SOLE WARRANTIES MADE BY CUMMINS IN REGARD TO THESE ENGINES. CUMMINS MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OR OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Coverage

Cummins warrants to the first user and each subsequent purchaser that the Engine is designed, built and equipped so as to conform at the time of sale by Cummins with all U.S. federal emission regulations applicable at the time of manufacture and that it is free from defects in material or factory workmanship which would cause it not to meet these regulations within the longer of the following periods: (A) Five years or 100,000 miles (160,935 kilometers) of operation, whichever occurs first, as measured from the date of delivery of the Engine to the first user or (B) The Base Engine Warranty.

If the vehicle in which the Engine is installed is registered in the state of California, a separate California Emission Warranty also applies.

Limitations

Failures, other than those resulting from defects in material or factory workmanship, are not covered by this Warranty.

Cummins is not responsible for failures or damage resulting from what Cummins determines to be abuse or neglect, including, but not limited to: operation without adequate coolants or lubricants; overfueling; overspeeding; lack of maintenance of lubricating, cooling or intake systems; improper storage, starting, warm-up, run-in or shutdown practices; unauthorized modifications of the Engine.

Any unauthorized modifications to the aftertreatment could negatively effect emissions certification and void Warranty.

Cummins is also not responsible for failures caused by incorrect oil, fuel or diesel exhaust fluid or by water, dirt or other contaminants in the fuel, oil or diesel exhaust fluid.

Cummins is not responsible for non-Engine repairs, "downtime" expenses, cargo damage, fines, all applicable taxes, all business costs or other losses resulting from a Warrantable Failure.
